

# GRIZZLY CTE HAPPENINGS

## Helping Students Dream

Do you remember what you wanted to be when you grew up? As a child, I would arrange my stuffed animal on the floor and using my imagination, I would teach these beautiful creatures, sometimes for hours. I grew up believing that I could one day become a teacher, that dream became reality.

As educators, we are perfectly placed to help students “catch” their dreams. This month, all students in grades 5-11 will be involved in virtual job shadowing. Come and dream with us, ask your children about their virtual job shadowing experience and help us catch their dreams.

Dr. Tonya Stone  
Career Development Facilitator

## Cluster Spotlight

### Architecture and Construction Career Cluster

The Architecture and Construction career cluster prepares learners for careers in designing, planning, managing, building and maintaining the built environment. People employed in these fields work on new structures, restorations, additions, alterations and repairs.

#### Careers:

Architect  
Landscape Designer  
Carpenter  
Construction

# CTE CONNECTIONS

Virtual Job Shadowing is part of the comprehensive work-based learning opportunities involved in Career and Technical Education (CTE). As students progress through high school, they will have the opportunity to take multiple levels of CTE courses and complete work-based learning opportunities. Work-based learning opportunities consist of paid or unpaid internship, paid apprenticeship, mentoring, cooperative-education, service learning, school-based enterprise and structured field study.

## **INTERN EXPRESS**

### **Spotlight on CTE Work Based Learning**

#### **Charisma Kaoud**

Charisma is interested in a health science career. She is gaining valuable knowledge working alongside the nurses at High Point Academy. Her compassion is what will make her outstanding in her field.

## **HOT JOBS!**

### **Filling the Gap: Manufacturing**

Did you know that manufacturing motor vehicles and parts is South Carolina's highest procedure of manufacturing revenue? BMW is a local manufacturing company and are constantly in need of workers. Manufacturing is a hot job, more openings than applicants to fill the vacancies.
