

Computer Protection Plan Coverage

High Point Academy recognizes the priority is to protect the investment of both the School and the Student/Parent/Guardian.

A non-refundable protection plan is included in Registration fees for all student-issued Computers. The following information outlines the various aspects of this protection: warranty, accidental damage protection, and protection plan coverage.

Terms of the Computer Protection Plan Coverage

The Computer Protection Plan Coverage costs \$50 per school year, and is included in Registration fees. The plan includes one Computer replacement per school year in the event of accidental damage as follows: one screen replacement due to accidental damage; and repairs for system-related issues or failures occurring from normal use. Any additional replacement or repair, including lost or stolen power cords and adapters, lost computers, or negligence/abuse, will cost the student/parent/guardian the cost of replacement, repair or the full replacement value of the Computer. In the event a student ChromeBook is stolen, the cost will be covered by the school only if the Parents notify the HPA Technology Department and file a Police Report with the local Police Department/Sheriff's Office (where the theft occurred) within 48 hours of the device theft, and provide the police report to the HPA Technology Department as well.

The Computer Protection Plan Coverage does not cover intentional damage, or destruction associated with misuse of the device, nor does it cover lost computers or lost/stolen chargers. Students will be responsible for the entire cost of replacement or repair in these instances.

Students are automatically opted in for insurance when they pay Registration fees. To be issued a school computer, students and Parents/Guardians must sign and return this form (and Student Pledge) during registration. Any student found missing these documents will not receive a school issued computer until the form has been properly filled out, signed, and returned.
