

HPA Families,

Your child’s academic success is our main priority. As a public charter school, High Point Academy must administer several tests as required by the State Department of Education each year. The chart below shows the name, dates, and grade levels required to take each test. These tests are one indicator of how well we are performing as a school, and we ask that you make every effort to have your child at school, on time, every day, but especially for the dates listed below. If a student is absent the day a test is given, the student must make up the test upon returning to school. We thank you for your help in creating a positive testing environment at High Point Academy.

Test	Date	Grade Level
KRA (kindergarten readiness)	During first 45 days	K5
Fall MAP testing	August 21-25	K-8th
ASVAB Fall	September 8	11th
