

3/3/2022

Dear HPA Families,

Based on the new DHEC Guidelines, HPA will no longer be required to quarantine students/staff who are close contacts with anyone positive for COVID-19. However, if HPA has two consecutive weeks where there are 10 percent or more positive COVID-19 cases, then quarantine guidelines will be reinstated. Students/staff who show symptoms and/or become positive will need to continue to follow DHEC guidance for isolation. Masks are no longer required, but they are highly recommended. Students/staff, however, that were positive and are returning from quarantine will still need to wear a mask for five additional days. Please reach out to the nurses' office if you have any questions.
